

# MTHOBISI NGUBANE

MID - FRONT END DEVELOPER

With 3 years of experience across various companies, I've honed my skills in front-end development.

## EXPERIENCE

### GREY ADVERTISING AFRICA

~ Mid-Front end developer  
MAY 2024 - Present

~ Front end developer  
APRIL 2022 - APRIL 30

I orchestrate the user experience by translating UI/UX designs into high-performance, interactive web applications. Leveraging my expertise in modern JavaScript frameworks (ReactJS) and a keen eye for design, I worked on famous campaigns like Savanna Dry Goods, Borderless, and Savanna Comedy Bar.

My responsibilities encompass:

- **Building dynamic and engaging user interfaces:** I utilize my front-end development skills to translate design mockups into functional and visually appealing experiences.
- **Ensuring seamless user experience:** From performance optimization to cross-browser compatibility, I ensure users have a smooth and enjoyable interaction with web applications.
- **Collaboration across teams:** I work closely with designers, project managers, and the creative team to bridge the gap between artistic vision and technical feasibility.
- **Spearheading DevOps initiatives:** Within a year, I spearheaded the implementation of DevOps practices, streamlining development workflows and optimizing delivery pipelines.
- **Maintaining technical excellence:** I stay abreast of industry trends and technologies, continuously learning and implementing new solutions to enhance our development process.
